## Precision Machining and Grinding

*Our modern precision machining and grind shop was initially put in place to support Centerline's spindle repairs and has grown into one of your most reliable and quality options for the manufacture and rebuild of precision cylindrical components.*

*"Spindle shafts, housings, drawbars, and other components."*

*"Quick delivery on hard-to-find or high priced OEM parts."*

*We specialize in precision cylindrical components and pride ourselves in quality customer service and satisfaction. To help service a broader range of customers, we are continuously working to expand our machining services. Not spindle related, no problem! Let us quote your job shop, production, or overflow machining needs. Whether its lathe work, grinding work, or if we need to purchase additional equipment to meet your needs, we aim to satisfy.*

**HSK Tapers**

*"OEM shafts built complete using existing rotors."*

**"Custom Parts"**

## Quality Spindle Repair

Centerline's position in the spindle repair market is one of unrivaled commitment to quality, customer service and independent ownership. Centerline's spindle repair service is born of German engineering and spindle manufacturing experience; American commitments to customer service; and the diverse, skilled personnel that make it happen daily with genuine pride in their craft.
